**AMENDMENT**

Sir:

In response to the Office Action dated 31 July 2000, Applicant respectfully requests reconsideration of the above-identified application in view of the following amendments and remarks.

Applicant notes that this First Office Action is marked FINAL. However, the Office Action made no reference to issuing a first office action final rejection in this case. Applicant therefore believes that this final rejection notation is in error. Applicant received confirmation from Examiner Holloway that this notation was in error by a telephone call returned by the Examiner to Applicant on 23 October, 2000. The Examiner stated the notation was in error and that the Office Action was recorded in the PALM system as non final. Applicant thanks the examiner for this confirmation and will henceforth treat the First Office Action as a non-final rejection..

Please amend the specification and claims as follows:
